### Troyer Tunnel Owl Guard

Step 1: To mark the location of where you need to drill holes into your tunnel, hold your owl guard against the front side. Mark the location of the holes.

Step 2: At the marked locations, drill holes using a 9/64" or 5/32" drill bit.

Step 3: Attach the owl guard to the back side of the tunnel using 1/2" bolts and nuts provided.
