### *Sunset Inn House*

*Sunset Inn Houses can be mounted on a mounting plate for a telescoping pole or a Multi-Purpose Pole. If using a telescoping pole mounting plate, follow the instructions included with the mounting plate. If you purchased this house with a Multi-Purpose pole the holes are predrilled for you. Read caring for your martin house below and follow the Multi-Purpose instructions. If you purchased this house separately and plan to mount it onto a Multi-Purpose pole follow the instructions below.*

*STEP 1: Remove the plate from the Multi-Purpose arm.*

*STEP 2: Position the martin house upside down by sliding it, roof first, back into the original shipping box.*

*STEP 3: Center the plate on the house bottom. To center, the measurements should be same from side to side and same from top to bottom. IMPORTANT: Orientation of the plate relative to the entrance side of the house is critical. Do not position the house with the entrances towards the pole.*

*STEP 4: Mark the location of the outside holes with a pencil or marker.*

*STEP 5: Use a 1/4" drill bit to drill holes at the marked locations.*

*STEP 6: Reattach the plate to the Multi-Purpose arm. NOTE: It is easier to attach the plate to the arm before the house is attached to the plate.*

*STEP 7: Fasten the house to the plate by reusing the nuts and bolts included with the Multi-Purpose Pole*

*CARING FOR YOUR MARTIN HOUSE: Inside each compartment, towards the back, is a ventilation port. Open the ventilation port during the warm part of the summer. The ventilation port will allow the air to circulate through the compartment. Remove the nests and clean the house at the end of each season. It is highly recom-*
