### Trendsetter/Sunset Corner Perches

Trendsetter/Sunset Corner Perches are designed to be mounted at the corners of a Trendsetter or Sunset martin house. Corner perches add 40" of perching space which will be repeatedly used by purple martins.

- STEP 1:** Place the corner perch in from the roof edge approximately 1" as shown in the photo.
- STEP 2:** Use a pencil and mark the roof where the two holes will be located.
- STEP 3:** Using a 3/16" drill bit, drill holes into the roof where your marks are.
- STEP 4:** Place a 3/4" bolt through each hole of the corner perch and roof. Secure each bolt with a lock nut.
- STEP 5:** Repeat step 1 through 4 in each of the other 3 corners of your martin house.
